

# Geosciences at Georgia State University Graduate Degree Programs

Visit us at  
[geosciences.gsu.edu!](http://geosciences.gsu.edu)

## Master of Science in Geosciences

### Geography Concentration

- GIS and environmental health
- GIS and community geography
- Urban Geography
- Environmental Change
- Biogeography
- Climatology
- Remote Sensing
- Hydrology

### Geology Concentration

- Clay Mineralogy
- Quaternary Geology
- Environmental Geochem.
- Environmental Mineralogy
- Soil Chemistry
- Paleobiology
- Geoinformatics
- Petrology

- Assistantships Available
- Conference Travel Support
- Live and Work in the Heart of Atlanta

### Graduate Certificate in GIS

- 20 credit hours leading to the Professional Certificate
- In-Person access to GIS experts in fields of remote sensing, public health, urban GIS, and other fields.

### Ph.D. in Chemistry (Geology Concentration)

- All coursework and research housed in Dept. of Geoscience.
- Research opportunities in mineralogy, geochemistry, structural geology, geoscience education, nanogeoscience, and other fields.
